

EXPERT HEARING TESTS FOR CHILDREN

OUR EARS HEAR LOTS OF DIFFERENT
SOUNDS...

SOME SOUNDS ARE **BIG!**

**Our ears are important
and they help us to...**

Learn how to **spea**k so that
we can talk with our friends

OR

so that we can **listen** to a
funny joke

OR

hear our favourite song.

SOME SOUNDS ARE TINY

...SOMETIMES OUR EARS
**STOP WORKING
PROPERLY**

When this happens we can visit an
ear expert. The ear expert is called
an audiologist and you can visit
them for a hearing test.

TOBY'S TRIP TO THE AUDIOLOGIST

Toby's ears are not working properly, so the audiologist **plays games** with him to find out what sounds he can or cannot hear.

The audiologist puts **headphones** on Toby, which **make funny noises** in his ears. Toby has to put a brick in a box every time he hears the funny noise.

NEXT...

The audiologist shows Toby some toys on a table. She asks him to find some of the toys, but she says the words very quietly.

Toby has to **listen very hard.**

HANNAH HAS A HEARING TEST

Hannah visits the audiologist because she **cannot hear** very well.

The audiologist puts a hairband on Hannah's head, which has a **little box** on it that makes a very quiet noise. Hannah can hear the sound from the box even though it **isn't in her ear.**

NEXT...

The audiologist looks in Hannah's ears with a **special torch** and puts a soft stopper into her ear that makes a **funny sound**.

This tickles a little, which **makes Hannah smile!**

The stopper measures the pressure inside Hannah's ear and draws a picture on the computer. Sometimes the picture is shaped like a mountain, other times the picture is flat like a pancake.

FIND OUT WHAT HAPPENED NEXT...

THE RESULTS

After Toby and Hannah finished their hearing tests, the audiologists talked to them about what can be done to help them hear better.

Can you think of a question you would like ask your Chime hearing experts?
